

UBUNTU

WOUND HEALING CONFERENCE 2010

Uncovering the hidden wound

A Global Wound Healing Initiative 5-8 September 2010 Cape Town, South Africa

The first Global Wound Healing Initiative on South African soil. This is the meeting to attend for Health Care Professionals wanting to make a difference in their communities and ultimately their countries.

A world-class program unique to uncovering the hidden wound across the globe, in sharing problems, solutions and new technologies.

CONFERENCE SCHEDULE- AT-A-GLANCE

SUNDAY, SEPTEMBER 5, 2010

PRE-CONFERENCE DAY 09:00–17:00

The major aim with this day is to create public awareness and to provide a basic education opportunity with regards to first aid care for burn wounds, stab wounds and minor injuries. It also takes a look at home care as care modality and the role and profile of the home based care worker. With diabetes being widespread, this day will also be an opportunity for any person with diabetes, to have a diabetic foot screen that will determine individual risk for developing a diabetic foot complication in future.

Pre-conference day target audience:

- General public
- Hospital groups and clinics
- Emergency services
- Health education providers

ABSTRACT SUBMISSION FOR BREAKOUT STREAMS – DEADLINE 7 JULY 2010

BREAKOUT STREAMS:

DIAGNOSTICS & MEASUREMENT

- This stream focuses on the scientific approach and technology available to all, it also provides the opportunity to discuss diagnostic measurements

BRIDGING THE GAP

- This stream focuses on innovative measures to bridge the gap between First and Third World Science and Practice

COMPLEX CASES

- This stream focuses on sharing knowledge and education on complex treated cases, what worked and what did not. This is thus a practical approach to daily wound management

TROPICAL CONDITION

- This stream focuses on Tropical Conditions encountered all over the world.

CONDITIONS OF NEGLECT

- This stream focuses on conditions caused by neglect such as Pressure Ulcers, AIDS & TB related wounds, Skin conditions, etc.

BURULI ULCER

- This stream focuses on sharing knowledge and education on the treatment and management of the Buruli Ulcer.

Papers to be presented should focus on neglected areas of care, resource restrained environments or creative problem solving initiatives

CAPE TOWN, SOUTH AFRICA 2010

We look forward to welcoming delegates to Cape Town – a vibrant city of diverse cultural heritage and extraordinary natural beauty. The Cape Town International Convention Centre is situated in the heart of the city with views of Table Mountain, the Waterfront and many historical amenities.

We have also negotiated special rates for accommodation at hotels close to the conference as well as specially rebated airfares from

major destinations, to make the conference more attractive to delegates to attend.

African Conferences and Incentives (ACI) is our official event organiser and will be able to assist and advise delegates on tours and ongoing travel requirements, should you decide to extend your stay in South Africa.
